Procurement of Drives and Motors for Manufacturers and Major Customers

Many equipment manufacturers can no longer supply themselves these days, either because they have been discontinued or are experiencing supply difficulties for some reason.

We offer you the opportunity to make a request on our stock to request the desired Drive to request. If we do not have the device in stock, we will support you in the procurement, or take over this completely, so that you can continue to concentrate on your core business.

If the procurement is successful, you will be notified by us in a timely manner. In addition, the drive preventively overhauled and extensively tested. If desired, we can store and reserve the unit for you, or deliver it at a specific Date deliver.

Services for drive modules and motors in sale or exchange

- Functional testing on **test stands** with motors and actuation
- Preventive overhaul of all stages according to specifications - consistent repair quality guaranteed
- Parameters as well as software are read out, adjusted and adapted
- Comprehensive documentation with checklists
- 12 months warranty
- On demand reservation up to 12 months

What to do when, despite much effort, the required equipment cannot be found?

There are alternatives: Repair and **serial repair**
